Schweiter Technologies confronted with weak markets in Q4

Steinhausen, December 12, 2025 – In the last quarter of this year, the Group is confronted with weak market and consumer sentiment in a highly uncertain economic environment. Combined with record-low commodity prices of relevant raw materials, sales are reduced primarily in the consumer-near “Display” and the automotive-near “Industry” market segments in Europe and USA. The other businesses of “Core Materials” and “Architecture” are developing overall more resilient. Net Sales for the current full year are expected to be around CHF 900 million, a reduction of about -11% compared to previous year.

The full-year EBITDA is expected to be at around CHF 70 million (about 8%). The measures implemented with the “Accelerate” program to increase efficiency and reduce costs are on track. In anticipation of ongoing limited visibility, the Group will continue to work on cost reductions as well as its agility.

The Group maintains solid cash conversion and a strong balance sheet with positive net cash.

FINANCIAL CALENDAR

- Publication of Annual Results 2025: February 27, 2026
- Annual General Meeting: April 9, 2026

ABOUT SCHWEITER TECHNOLOGIES

Schweiter Technologies, with its head office in Steinhausen, Switzerland, is a globally active Group focusing on composites solutions with its division 3A Composites. The main activities include the development, production and distribution of high-quality composites, synthetic sheets, foamboards and core materials based on balsa wood and PET foam. These materials are used in lightweight applications, primarily in the areas of visual communication (display), architecture, wind energy, industry and shipbuilding.

The company has offices, distribution facilities and production sites in Europe, America, and the Asia-Pacific region, and employs some 4,200 people. Schweiter Technologies AG is listed on SIX Swiss Exchange with the ticker symbol SWTQ.
